Designation of Inheriting Beneficiary

Section 1.5 of Article XI of the Health Savings Custodial Account (HSA) contains an important discussion of your right to name primary and contingent beneficiary(ies). Your designation will revoke all prior HSA beneficiary designations with respect to the referenced HSA account. In the event of your death, you hereby direct that any balance in your HSA shall be paid to the following designated beneficiary or beneficiaries. If any primary or contingent beneficiary dies before you, then you wish to have the following result:

- 1. the interest of that deceased beneficiary, his or her issue and spouse, if any, shall terminate totally and the percentage share of any surviving beneficiary(ies) shall increase on a pro rata basis; or
- 2. the interest of that deceased beneficiary shall be paid to his or her issue who are alive or who have living issue, such issue will take by right of representation the share the deceased beneficiary would have taken if living, and persons of the same class shall share equally.

If you do not make the above designation, then you are deemed to have elected the "pro rata" selection under #1.

The following individual(s) and/or entity(ies) shall be your beneficiary(ies). You must check Primary or Contingent for each beneficiary. If neither is checked, the designated beneficiary will be deemed to be a primary beneficiary.

Eligibility Determination

You are responsible to determine your eligibility to establish an HSA—we are not. You should consult with your insurance provider, employer, or other legal/tax advisor as necessary. You are eligible to establish this HSA only if you meet the following eligibility requirements: (1) you are covered by a high deductible health plan (HDHP); (2) you are not covered by a non-HDHP; (3) you are not able to be claimed as a dependent by another taxpayer; and (4) you are not age 65 or older, or if you are, you are not actually enrolled in Medicare. You should refer to the HSA Disclosure Statement for an additional discussion.
